Chain and Flight Clarifier User
NYWEA Conference Attendees

Re: Chain and Flight User Gift Card

Dear Chain and Flight User and NYWEA Conference Attendee:

We are offering a free **\$10 Home Depot gift card** to any chain and flight user who brings a link of collector chain from their existing Chain & Flight clarifiers to our booth at NYWEA in Times Square, February 4&5th.

Guardian Environmental Products is an OEM manufacturer of custom engineered chain and flight equipment, on-site clarifier inspection services and independent consulting services throughout the United States. As part of our efforts to establish closer relationships with end users, we would like to offer these gift cards specifically to Chain and Flight users.

If you have existing Chain and Flight clarifiers, just bring a link of your existing collector chain to our booth at NYWEA and we will give you a Home Depot gift card worth \$10. It's that simple. We would ask that you either bring a business card or complete our customer registration information so that we can look forward to supporting you in the future and growing our end user relationship. Please only one gift card per municipality and you must be a user of chain and flight clarifiers.

Please also visit our website at www.guardwater.com or call us if you have any questions about the services and products we offer or if we can be of any immediate assistance. We look forward to seeing you all in NYC.

Regards,

Kenneth W. Fuller
